AT
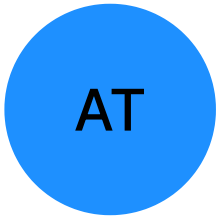

SUMMARY

Senior UI/UX Developer with over 8 years of experience skilled in Adobe XD, wireframing, and testing. Successfully led a team at IBM and consistently delivered client satisfaction throughout career. Exceptional attention to detail, strong collaboration, and proven problem-solving skills.

EXPERIENCE

Senior UI/UX Developer

IBM

📅 2017 - Present   📍 Fort Worth, Texas

Led a team of 5 to develop user-centered designs.

- Supervised the conceptualization and creation of UI/UX prototypes, resulting in simplified user experiences.
- Managed the testing of user interfaces, boosting interface usability by 45%.
- Played a significant role in user research, leading to the successful execution of user-focused applications.

UI/UX Developer

Oracle

📅 2015 - 2017   📍 Fort Worth, Texas

Designed and implemented user interfaces for enterprise applications.

- Designed and delivered 8 successful projects, earning a 95% satisfaction rate from clients.
- Utilized Adobe XD for the creation of wireframes, improving the app design process.
- Undertook continuous user-testing during development, reducing app errors by 30%.

UI/UX Designer

Microsoft

📅 2013 - 2015   📍 Fort Worth, Texas

Assisted in the development of user interfaces for software products.

- Collaborated with product managers to create user-centric designs, increasing product usability.
- Worked with stakeholders to meet software requirements, ensuring a 100% project success rate.
- Used wireframe tools to create user-friendly designs, contributing to an increase in product usage.

STRENGTHS

⭐ **Team Collaboration**
Highly collaborative, worked with cross-functional teams in all 3 roles, leading to successful project outcomes.

🏅 **Problem Solving**
Proven problem solver, identified and rectified bottlenecks on user interaction flows, improving UX by 20%.

🚩 **Attention to Detail**
Exceptional attention to detail, spotted minute design inconsistencies during projects, ensuring a polished end product.
